

Description

Corny keg complete with lid and pressure relief valve. Kegs are non-stackable.

Top chime design may vary. All 304 SS top to bottom for durability and better cold transfer.

6l Corny keg is a keg adopted from soft-drink industry to home brewing for its versatility and ease of use. The central opening that is used for filling is also big enough for hand-washing. This keg eliminates the need to fill the bottles and is perfect for the kegerator system. That's why it is so popular among home brewers.

SIZE/VOLUME	HEIGHT	DIAMETER	MAX PRESSURE
1.5 GAL (6L)	226 MM	233 MM	60 PSI
